

Ploughing Championships 2014

On 23rd September the Transition Year group of St Louis Community School went to the first day of the ploughing championships 2014. Along with 82,000 people from all over the country, we arrived in Ratheniska, Co Laois at 11am. We were tired after the five hour journey from Mayo.

We all had to queue to get our wrist bands to go into the event and then we split up into own groups. We went to explore the different animals, machinery and of course we had a while at the fun fair. Some of the group went down to watch the actual ploughing . We all had a great time and it was a very memorable experience.
