

Art Room

Here at St. Louis, we are very fortunate to have a magnificent and spacious Art room which was once part of the main Chapel at St. Louis. Its high ceiling and stained glass windows contribute very well to an artistic atmosphere in which creativity thrives.

The Art room is stocked with a set of versatile trestle art tables, easels, kilns, equipment and materials for various aspects of Art, Craft and Design for students of Junior and Senior Cycles and also Post Leaving Cert courses. A generous sized storeroom also features along with ample storage space within the Art room itself.

Information Technology is becoming an increasing aspect of the Art room reflecting the times we live in. Computers, overhead projector, visualiser, animation copy stand, all in one colour printer, all enhance teaching, learning and creativity in the Art room.
