

Reading Corner and Online Library.

Increasing the number of students who read for pleasure and creating good reading habits is a goal of the English Department in St. Louis Community School. Our school reading corner, located in room 4229, is an inviting and relaxing space for reading. Students can access the library at morning break, lunchtime and after school where they can come to read, play board games and check out the newly stocked books & magazines. We offer Bronze, Silver and Gold Reading Certificates for our Junior Cycle Readers at the end of the academic year.

Keeping in line with the rise in popularity of e-readers, the school now offers Kindle Fires that are loaded with the latest best sellers in Young Adult fiction as audiobooks or ebooks. We are also delighted to offer an online library on Overdrive of popular best sellers that students can access all year round on Kindle Fires or their mobile phones.
