

The Quiet Room.

The Quiet Room is a quiet relaxing space and it is a room designated to all of our students at lunch time. It has a number of bean bags to relax on, and shelves of great books to read. The dim lighting and soft music add greatly to the atmosphere of this relaxation space.

Two years ago the Student Council set up this room and today a team of senior students, made up of council and non council members give up their lunch time to supervise it.

The Quiet Room gives students the opportunity to take some time out for themselves and all students are invited to use it.
