

Mayo Road Safety Roadshow.

On the 11th of February our TY's attended the annual Road Safety Roadshow in the TF, Castlebar. The roadshow is aimed at Transition Year students and the objective of the show is to encourage young drivers, and those about to start driving to be more responsible on the road. The students were shown just how bad the consequences can be if they don't drive safely. They were shown this by presentations and speeches made by, An Garda Síochána, the Ambulance Service, Fire Service, a consultant based within A&E, a family member of a deceased road traffic accident victim, a car crash survivor, and an undertaker. There were also many videos showing how quickly a car accident can happen and how bad the effects can be, not just to the people involved in the accidents, but their family and friends too. Some of the show was very hard hitting, but it was a real eye-opener for all present.
