

# St. Louis Community School

## Principal's report for the school year 2016-17

Summarising the happenings in our school this year, I am filled with a sense of pride modified by humility at having the privilege to work as Principal in such a vibrant, caring, progressive, innovative and, most importantly, happy school.

The work and dedication of the staff to the holistic education of the students in our school is truly remarkable. When I say staff I mean everyone that works in this school, teachers, special needs assistants, secretaries, caretakers and cleaners. The way that they work together to provide a culture of helping and caring is equally remarkable.

Teaching and Learning are the cornerstones of our job. 15 of our teachers have either completed or are in the process of completing a 12 day course in instructional leadership, 3 others have undertaken the leading learning course organised by the National Association of Principals and Deputy Principals. Next year we will embark on a collaborative learning project with Carrick On Shannon Community School. The project will involve the Principal and 5 teachers from our school meeting with the Principal and 5 teachers from Carrick. The focus of the workshops will be looking at methods for “Building Learning Power” and sharing practice. These Workshops will be facilitated by Graham Powell (co-author of Building learning power) These programmes are at the cutting edge of new methodologies to enhance learning in the classroom. For various reasons it has not been possible to document sharing of methodologies, however it is hoped that the good start made the year before last can be continued in the future.

As you will see from the outline of the activities undertaken in our school this is not reserved for just the classroom. All-Ireland titles, National awards and Connaught titles among the achievements which are outlined below. The willingness of teachers to get involved in extra-curricular activities and professional development is very evident and ensures that the school is a thriving part of the wider community. This year we raised the Amber Flag for Mental Health, received Ambassador status for Cycle against Suicide for the 4<sup>th</sup> year in a row, received our 4<sup>th</sup> Green Flag, received Development Education School status and raised the Health promoting school flag

The collaboration of parents, teachers and students has manifested itself in many activities this year. To this end I am very thankful to the parents and their association for their active supporting engagement with the school. Our students never fail to raise my spirits. The good natured and happy way they conduct themselves on a daily basis is, I believe, a manifestation of the pastoral care system in the school. It reflects of the desire of their parents to see their children not only succeed academically but socially as well.

We look forward to expanding and enhancing our facilities next year. A new suite of rooms have been completed, this suite consists of a Beauty Therapy room, Hair Dressing Salon and a Gym. The funding provided for additional accommodation will, I hope, further enhance the educational experience for all members of our school community. This final phase of the building project (7 additional Classrooms plus a large multi-purpose room is due to start in Autumn. I am confident that despite the disruption, we will all work to realise a wonderful new addition to our school.

Like the conductor of an orchestra I do not produce the wonderful music of success, which can be felt every day in our school. My role is merely to facilitate and support others to in their efforts. It is the players in the orchestra that produce the music. I would like to single out one player, that is, Ms. Lyons our Deputy Principal, who on a daily basis ensures the smooth running of the remarkable community which is St. Louis Community School. To conclude I wish to thank those who serve on the Board of Management for their help and support throughout the year, the level of knowledge of board members and their openness to innovation which allows us all to advance and reach our potential.

Date	Category	Event	
June	<b>Supports</b>	<b>School begins online payments</b>	<b>Thanks to Ms. Conroy for setting this up and overseeing the implementation.</b>
26 Aug	Board	School year begins with Staff meetings

30 Jan	Student Supports	<p>Catholic Shools week There were two displays in our school for the week - one at the student entrance and one at the main entrance. The one at the student entrance was "A minion ways to practice your faith" This was a display compiled by the students suggesting the variety of ways faith can be practiced. The display was put together by the Chaplaincy Team.</p> <p>Some of the JPIIs and the Chaplaincy Team put the display together at the main door. It depicted the theme for CSW - Care for Our Common Home. This was done in the form of symbols and crosses. Candles were lit at the sacred space each day. St. Brigid's crosses were made courtesy of Geraldine Molloy and a St. Brigid's blessing became part of the sacred space.</p> <p>Other work for CSW was carried out in RE classes with their RE teachers.</p>	Thanks to Ms. O'Brien for organising this
