

St. Louis Community School

Principal's report for the school year 2015-16

Summarising the happenings in our school this year, I am filled with a sense of pride modified by humility at having the privilege to work as Principal in such a vibrant, caring, progressive, innovative and, most importantly, happy school.

The work and dedication of the staff to the holistic education of the students in our school is truly remarkable. When I say staff I mean everyone that works in this school, teachers, special needs assistants, secretaries, caretakers and cleaners. The way that they work together to provide a culture of helping and caring is equally remarkable.

Teaching and Learning are the cornerstones of our job. 12 of our teachers have either completed or are in the process of completing a 12 day course in instructional leadership, 7 others have undertaken the leading learning course organised by the National Association of Principals and Deputy Principals. These programmes are at the cutting edge of new methodologies to enhance learning in the classroom. Peer observation has developed this year and I hope it will continue to develop and set us apart as a collegial collaborative school. The support of teachers to undertake these programmes underscores the commitment of the board of management to providing quality education in St. Louis.

As you will see from the outline of the activities undertaken in our school this is not reserved for just the classroom. All-Ireland titles, National awards and Connaught titles among the achievements which are outlined below. The willingness of teachers to get involved in extra-curricular activities and professional development is very evident and ensures that the school is a thriving part of the wider community.

The collaboration of parents, teachers and students has manifested itself in many activities this year. To this end I am very thankful to the parents and their association for their active supporting engagement with the school. Our students never fail to raise my spirits. The good natured and happy way they conduct themselves on a daily basis is, I believe, a manifestation of the pastoral care system in the school. It reflects of the desire of their parents to see their children not only succeed academically but socially as well.

We look forward to expanding and enhancing our facilities next year. The funding provided for additional accommodation will, I hope, further enhance the educational experience for all members of our school community. This Building project is due to start in Autumn 2016 and preparations are underway to accommodate the building works. I am confident that despite the disruption, we will all work to realise a wonderful new addition to our school.

Like the conductor of an orchestra I do not produce the wonderful music of success, which can be felt every day in our school. My role is merely to facilitate and support others to in their efforts. It is the players in the orchestra that produce the music. I would like to single out one player, that is, Ms. Lyons our Deputy Principal, who on a daily basis ensures the smooth running of the remarkable community which is St. Louis Community School. To conclude I wish to thank those who serve on the Board of Management for their help and support throughout the year, the level of knowledge of board members and their openness to innovation which allows us all to advance and reach our potential.

Dates in July/August	Teaching and Learning	Met with 4 companies regarding the ICT Infrastructure in the school with a view to upgrading facilities.		 Our 1st Yr Football Team are winners of the Tinnery Cup. Well done to all the students involved and their coach Mr. Mullins.  Our students recently enjoyed a day out at Moone Hall. They learned lots of new orienteering skills and they had lots of fun. Thanks to Mr. Connaughton and Ms. Flanagan for organising this.
August		4 5 th year students (Ruairi Weiner, Ciara mulderrig, James O'Grady and Katie Dwyer) went to Lourdes this summer as youth leaders	Thanks to all staff members who encouraged and supported them in this endeavour.
